

ALPHA FOR YOUTH

Thanks for running Alpha for Youth!

We're so excited that God has called you to serve in this capacity and we want to make sure you and your team are equipped and confident to lead.

Although every group and context can be different, there are some components to Alpha that make it a success. Here are 5 important key factors to consider:

1. Involve students in leadership and training (for buy in and ownership).

2. Alpha works best when students invite their friends. It's not a Sunday school curriculum. It's an evangelistic tool with a discipleship element and not solely for teens that attend church regularly.

3. Include the essential elements of Alpha: Including the Team Training and the Alpha Weekend/Day

4. Alpha is not a one-time thing. Think about the next time you can run it and encourage your team/guests to think about who to invite.

5. Lots of help is available to help you run a great Alpha (i.e., coaches, champions). Utilize this network of support!

The Student-Led Alpha Kit is available on myAlpha to all leaders running Alpha for youth. This is a great addition to the training videos and documents we provide for leaders and teams.

Visit alpha.org/ays for more information. There are also a number of Training videos, Toolbox documents and other helpful resources available in myAlpha to help you run a great Alpha.

Got questions? Email youth@alpha.org.
